DR. M'GLYNN'S REPLY. Re Refers to the Pape's Letter and Cre

New York, Nov. 16.—Dr. Edward Mo-

Glynn addressed a large audience a Cooper Union last night on the admis-sions made by the Pope in his recent letter on the condition of labor, and in conwhich created a sensation among his

hearers:

"I intended on next Sunday to talk about the remedies proposed by the Pope. But something serious has happened during the week, The newspapers, by aid of the press associations and on the authority of the Archbishop of the Diocese of New York and what he has alleged to have received in a letter from the Propaganda, have made me the subject of a great deal of attention. I am not sorry, however, that the matter has again been precipitated. I shall come prepared on Sunday next to say what I have to say.

"I am the 'unfrocked priest' and on certain conditions can get my frock back. I still have my frock, so that is not true. I use it as a dressing gown at home. It is my own and I paid for it, and if an attempt was made to take it away from me I could say, I defy you under the American flag.

"It if bad thoology to call me an expriest. According to strict theology I am to be a priest for all sternity, whether in heaven or in hell. If I were called to Rome I could wear my old frock or buy a new one and no one could say me nay. But I will not anticipate. I will come next week with the retraction I am prepared to make."

EWith these defiant words the excommunicated priest bade his heavers good night amid deafening applanae. "I intended on next Sunday to talk

WHAT THE SCRIBES SEE AND HEAR

Rev. Powick, of the Methodist Episcopal Church of Town, Deliveres Another Able

and Interesting Sermon. The services at the Methodist Episcopal hurch Sunday were of more than ordipary interest. The pastor announced that at the Eccumenical Conference of Methodism recently held at Washington the present week was set apart as a day of orayer to God for the outpouring of the same. This is a burning shame to the men H ly Spirit upon the church. After urgng the people to observe the week as such he announced as his text John XVI-14 and II Thosa, 1-12. "He shall glorify me: for He shall receive of mine and shall show R ipon you. That the name of our Lord Jesus Christ may be glorified in you and ye in Him." There is a community of interest between the Lord Jesus and his believing children. They "have fellowship '-that is partnership with each otherthey are "laborers together." They are mutually concerned in the interests of one mother; we in promoting his glory on earth and he in promoting ours in heaven. Too often we are more concerned for the profits of the partnership than with its obligations. Some people in the world—like some of the Thessalenians—seem to think that the chief obligation of God's people is to fold their arms and merely wait for the Lord's return that they may be glorifled with him. His second advent is a very precious doctrine and very full of comfort, but if it is to be of any comfort to us we must do something to "hasten" it by holy living and active working as well as patient waiting. The spiritual slothfulness which waits for the gospel to demonstrate its inefficiency, and the moral cowardice which grounds the realization of its hopes upon universal wreck and rnin are foreign to the There will be an entire change of prospirit of him who said: "I am not gramme each performance. The prothat believeth." Christ must be glorified in us if we are ever to be glorified in him. And he is glorified in us when he is enthroned as the Lord of our affectionswhen it is as true of us as it was of Paul : "To me, to live is Christ and to die is gain." The exhibition of our faith and love in obedience to his commands—resignation to person with a paid ticket. Admission 10, his will-earnest toil in his vineyard-self- 20 and 30 cents. Of this \$33,728 goes to one plantor, Leon Godehaux. Some of the sugar manufactured by the old fashfond open kettle system is found to fail below the 80 per cent. limit, and will, therefore, receive no bounty.

sending of missionaries—instructing the erring—reclaiming the wandering and saving the lost—these glorify eaus, and must end in our being glorified in him. The Holy Spirit glorifies Jesus in interpreting to us His truth and in working in us that which is well pleasing in His sight. Herein is my Father glorified, that ye bear much fruit. The sermon in the evening was on "Laying up Treasures is Heaven." Just "Laying up Treasures is Heaven." Just as the congregation was about to be disnissed several persons arose for prayer and l

Coroners' Juries.

EDITOR HERALD:-I have always be leved, and do yet, that intelligence should lead the van in the name of humanity Let intelligence lead in this question also How many of our deputy ouroners are there to-day holding office who may be 'qualified to fill the office," but who have not the remotest bles about a coal mine, or ts workings? Jurors who are selected to find an intelligent verdict "under oath" are generally men who, never in their lives were down in a coal mine, or traveled itgloomy passages; and to them such terms as pillars, breasts, monkey gangways slants and top splits, etc. are like so muc-Greek. But there is another evil and, i my humble opinion, it should be promptly changed by registation, is that witnesses who are compelled "according to law" to appear before a coroner's jury to give evidence receive no compensation for the who have represented the sons of toil in this Commonwealth for the last forty years Another evil is the gossip of the street That, in a majority of cases, the joron only receive fifty cents for their services, while the law allows the magnificent sun of one dollar. Why this discrimination Your humble servant would like to be in formed. And, among the many other evil that exist, is the difficulty in trying to fine an honest and intelligent verdict. I am o the opinion that the office of a company, or individual, is not a suitable place t hold an inquest in. The coroner should have a proper office for such purposes. candidly believe that if an effort was made to rectify some of the evils that exist in th coal field it would be satisfactory to al parties concerned. I shall endeavor t suggest a remedy in my next.

But while we will not be able to witness an olipse in the beavens for some years to one, we have the consolation of having me at our very doors-on earth. A gang of Italians started in this morning to eclipse all doubt as to whether the electric railway will be built. The eclipse is discernible from the Turkey Run switch of the P. & R. railroad and a view of the Wm. Penn breaker is shadowed by the vigorous movenents of about sixty horny-handed sons of

I wonder if Manager Ferguson will give his patrons the benefit of comic opera this ason? He is getting into a rut. It may be true, as some tell me, that cowic opera companies will not book at the opera house on account of the low percentage allowed by Mr. Ferguson, but I hardly think that a the real cause.
